

APS Security & Fire are currently recruiting for a **Fire & Security Installation Engineer**

We are looking for a multi disciplined installation engineer with strong and tangible product knowledge in the fire and security industry. However, a strong background in either security or fire would be considered, with the view to additional training to achieve a multi discipline ability. A competitive remuneration package is offered depending on experience and qualifications.

Location: Nottingham/Derby/Leicester

Job Type: Full-time

Salary: £24,000.00 to £31,000.00 /year
+ company vehicle + fuel card + mobile phone + laptop

Required licence or certification: Driving License

We are a BAFE approved and NSI Gold accredited installer of security & fire systems. Established for over fifteen years, our company has during this time has grown in stature such that we now stands as one of the most prominent providers of Fire and Security services in the region. Due to continued success an opportunity has arisen to join our installation department.

This position offers huge potential to any career minded individual who wants to progress within the industry, our company is going from strength to strength and progression within is guaranteed to the right individual. Our company offers a fantastic package and the chance to take any dedicated engineers career to the next level.

Installation engineers do not form part of the on call Rota and will cover a local area only.
